

DELTA Study Notebook

High Frequency Word Cards: pedagogy, lesson routines, assessment, and classroom applications

Prepared by: Badawy Rabie

For DELTA candidates

Use this notebook to connect a simple high-frequency word resource to principled literacy pedagogy, lesson design, classroom management, diagnostic assessment, and reflective practice.

Source document processed

The uploaded PDF contains a 500-word high-frequency word card set, with notes for use in introducing/reviewing words, reading sentences, reading texts, and games.

How to Use This Notebook

This notebook transforms the uploaded high-frequency word card PDF into a professional DELTA-oriented study resource. It is not just a printable word list: it adds teaching rationale, lesson routines, reflective tasks, assessment tools, and principled ways to use the cards in language classrooms.

Before an input session

- Skim the relevant concept pages.
- Choose one frequency band and predict learner difficulties.
- Prepare one micro-teaching routine using the word cards.

Before teaching practice

- Select 8-12 target words, not 40 at once.
- Plan meaning, pronunciation, recognition, sentence reading, and feedback.
- Anticipate L1 and decoding issues.

After teaching

- Record which words were secure, slow, or confused.
- Note whether learners recognized words in connected sentences.
- Plan recycling, not reteaching from zero.

For DELTA reflection

- Link practice to automaticity and word recognition.
- Justify activity design in terms of learner needs.
- Evaluate evidence, not impressions.

Important source note

The original PDF presents large printable word cards and a smaller high-frequency word list. This notebook reorganises that content into a study guide for teacher development while preserving the 500-word sequence in the appendix.

Table of Contents

1	What the source PDF contains
2	DELTA rationale: why high-frequency words matter
3	Core terminology for assignments and input sessions
4	A principled lesson sequence for high-frequency words
5	Assessment, diagnosis, and recycling
6	Frequency-band study units: 1-500
7	DELTA toolkit pages
8	Appendix: Complete 500-word list

1. What the Source PDF Contains

The uploaded PDF is a set of high-frequency word cards. Page 1 explains that the resource is used with lesson sets for introducing high-frequency words, reviewing them, reading sentences with taught words, reading a text, and practice games. Pages 2-51 present the words in large font, numbered from 1 to 500.

Resource map

- Pages 2-11: words 1-100, including the highest-frequency function words and early content words.
- Pages 12-21: words 101-200, adding common verbs, adjectives, nouns, and classroom-relevant items.
- Pages 22-31: words 201-300, broadening into school, travel, jobs, stories, and common verbs.
- Pages 32-41: words 301-400, adding more concrete nouns, colours, directions, actions, and descriptive language.
- Pages 42-51: words 401-500, including topic words useful for communication, study, and lesson texts.

What candidates should notice

- Many early words are function words: articles, pronouns, prepositions, auxiliaries.
- A word-card resource needs a teaching sequence; display alone is not teaching.
- Recognition must move from isolated word to sentence to text.

DELTA angle

- How would you justify the selection and order of target lexis?
- How does recycling affect retention?
- What evidence shows automatic recognition?

2. DELTA Rationale: Why High-Frequency Words Matter

High-frequency words are words learners meet again and again in reading and classroom language. Some are easy to decode; others are irregular or contain spelling patterns learners have not yet mastered. A teacher needs to help learners recognise these words quickly so that attention can move from decoding individual words to understanding sentences and texts.

Core principle

Do not treat high-frequency word practice as memorising random words. Treat it as a bridge between phonics, word recognition, spelling patterns, sentence reading, and fluency.

A DELTA candidate should be able to explain not only what the activity is, but why it is appropriate for a particular class. For example, drilling the word was is not enough. Learners need to see it in meaningful contexts: I was at home. / It was cold. / Where was he?

Useful distinctions

- High-frequency word: common in written or spoken input.
- Decodable word: can be sounded out using known grapheme-phoneme links.
- Irregular/tricky word: contains a spelling-sound relationship learners may not yet know.
- Automaticity: quick recognition with little conscious effort.

Common candidate weakness

- Overloading learners with too many words.
- Using flashcards without sentence-level practice.
- Correcting pronunciation but ignoring spelling patterns.
- Testing before teaching.

3. Core Terminology for DELTA Candidates

Orthographic mapping	The process of linking sounds, spellings, and meanings so that a word becomes stored for quick recognition.
Automatic recognition	Recognising a word quickly without sounding out every letter each time.
Recycling	Planned reappearance of previously taught words over time.
Retrieval practice	Asking learners to recall words from memory, not only recognise them.
Sentence-level reading	Moving from single-word recognition to understanding the word inside a sentence.
Diagnostic evidence	Information from learner performance that tells the teacher what to reteach, review, or extend.
Error pattern	A repeated learner difficulty, such as confusing there, their, and they.
Cognitive load	The amount of mental effort a task requires. Too many new words at once increases load.

DELTA reflection task

Choose five words from the first 100 words. Which are function words? Which are content words? Which would you teach through phonics, which through phrase/sentence pattern, and which through meaning in context?

4. A Principled Lesson Sequence

The source PDF names several lesson uses for the cards. The sequence below turns those uses into a complete, principled teaching routine suitable for young learners, adult beginners, literacy support classes, or remedial reading sessions.

1. Select	Choose 8-12 target words. Mix new words with recently taught words.
2. Notice	Show the card. Learners read silently, then repeat. Draw attention to sound-spelling or irregular parts.
3. Mean and use	Put the word in a short sentence. Ask a simple concept or checking question if needed.
4. Recognise	Students find the word among distractors or in a sentence strip.
5. Retrieve	Remove the model. Students recall the word from a prompt, sound, sentence, or first letter.
6. Read in sentences	Students read sentences with taught words, focusing on smoothness and meaning.
7. Read in a text	Use a short text that recycles the target words naturally.
8. Review and record	Students sort words into secure / slow / difficult. Teacher records next-step evidence.

Trainer tip

A word card is a material, not a method. The method is the sequence you build around it: noticing, modelling, practice, retrieval, sentence reading, text reading, and delayed review.

5. Assessment, Diagnosis, and Recycling

High-frequency word work should generate evidence. DELTA candidates should train themselves to notice not only whether learners are right or wrong, but also the type of difficulty: recognition speed, pronunciation, spelling, sentence use, confusion with another word, or lack of meaning.

Area	What to observe	Next teaching move
Accuracy	Can the learner read the word correctly?	Reteach sound-spelling or irregular part.
Speed	Is recognition automatic or slow?	Add short timed review with familiar words.
Transfer	Can the learner read the word in a sentence?	Move from cards to sentence strips.
Meaning/use	Can the learner use the word appropriately?	Add oral examples and short sentence completion.
Confusion	Which words are mixed up?	Contrast the pair in meaning, form, and sentence context.

Quick diagnostic routine

- Show 20 mixed cards.
- Mark: instant, slow, incorrect, self-corrected.
- Ask learners to read 5 sentence strips.
- Plan next lesson from the error patterns.

Recycling schedule

- Same day: quick retrieval game.
- Next lesson: sentence reading.
- End of week: mixed review.
- Two weeks later: short text recycle.

6. Frequency-Band Study Units

Each band below contains 50 words from the original 500-word sequence. For DELTA purposes, focus on how the profile of the words changes: early bands contain many grammar/function words; later bands include more lexical/content words, topic words, and classroom text vocabulary.

Band 1: Words 1-50

Teaching focus

The first 50 words are extremely frequent and many are function words. They are essential for sentence reading, questions, and classroom instructions.

1 the	2 to	3 and	4 of	5 a
6 in	7 is	8 I	9 you	10 it
11 for	12 that	13 on	14 was	15 with
16 are	17 this	18 be	19 not	20 as
21 at	22 he	23 have	24 from	25 or
26 they	27 all	28 but	29 by	30 your
31 one	32 can	33 we	34 his	35 if
36 will	37 what	38 about	39 my	40 do
41 there	42 an	43 up	44 had	45 out
46 when	47 so	48 no	49 would	50 more

Practice ideas

- Card sweep: place 12 cards on the table; learners touch the card they hear and then read it aloud in a sentence.
- Fast/slow sort: learners sort words into "I know it fast" and "I need more practice"; teacher uses the slow pile for review.
- Sentence strip match: match a card to a gap in a short sentence, then read the full sentence smoothly.
- Contrast pairs: choose two visually or semantically confusing words and ask learners to explain the difference in context.
- Mini text recycle: write a four-line text using 8 words from the band plus 4 old words from earlier bands.

DELTA reflection questions

- Which words in this band are function words rather than topic vocabulary?
- Which words may be irregular or difficult to decode for your learners?
- Which words can be taught through phrases rather than isolated meanings?
- What evidence would show that learners know the words automatically?
- How would you recycle these words in the next lesson?

Band 2: Words 51-100

Teaching focus

Words 51-100 introduce more pronouns, time words, verbs, and everyday classroom vocabulary. Learners need fast recognition and sentence practice.

51 she	52 were	53 her	54 like	55 me
56 some	57 their	58 other	59 time	60 has
61 get	62 them	63 then	64 people	65 how
66 see	67 who	68 just	69 new	70 into
71 now	72 been	73 which	74 only	75 could
76 know	77 any	78 these	79 over	80 than
81 back	82 him	83 first	84 very	85 us
86 go	87 our	88 good	89 may	90 make
91 here	92 two	93 many	94 also	95 way
96 did	97 where	98 use	99 down	100 home

Practice ideas

- Card sweep: place 12 cards on the table; learners touch the card they hear and then read it aloud in a sentence.
- Fast/slow sort: learners sort words into "I know it fast" and "I need more practice"; teacher uses the slow pile for review.
- Sentence strip match: match a card to a gap in a short sentence, then read the full sentence smoothly.
- Contrast pairs: choose two visually or semantically confusing words and ask learners to explain the difference in context.
- Mini text recycle: write a four-line text using 8 words from the band plus 4 old words from earlier bands.

DELTA reflection questions

- Which words in this band are function words rather than topic vocabulary?
- Which words may be irregular or difficult to decode for your learners?
- Which words can be taught through phrases rather than isolated meanings?
- What evidence would show that learners know the words automatically?
- How would you recycle these words in the next lesson?

Band 3: Words 101-150

Teaching focus

Words 101-150 include common verbs and adjectives useful for classroom tasks, narratives, and instructions.

101 well	102 after	103 day	104 think	105 help
106 find	107 most	108 work	109 its	110 made
111 too	112 little	113 want	114 right	115 because
116 much	117 even	118 each	119 should	120 through
121 before	122 long	123 take	124 look	125 must
126 off	127 am	128 around	129 why	130 come
131 old	132 last	133 still	134 need	135 same
136 man	137 such	138 got	139 big	140 next
141 something	142 another	143 name	144 water	145 say
146 world	147 never	148 great	149 again	150 those

Practice ideas

- Card sweep: place 12 cards on the table; learners touch the card they hear and then read it aloud in a sentence.
- Fast/slow sort: learners sort words into "I know it fast" and "I need more practice"; teacher uses the slow pile for review.
- Sentence strip match: match a card to a gap in a short sentence, then read the full sentence smoothly.
- Contrast pairs: choose two visually or semantically confusing words and ask learners to explain the difference in context.
- Mini text recycle: write a four-line text using 8 words from the band plus 4 old words from earlier bands.

DELTA reflection questions

- Which words in this band are function words rather than topic vocabulary?
- Which words may be irregular or difficult to decode for your learners?
- Which words can be taught through phrases rather than isolated meanings?
- What evidence would show that learners know the words automatically?
- How would you recycle these words in the next lesson?

Band 4: Words 151-200

Teaching focus

Words 151-200 move into school, home, people, and text-management words. These are useful for short texts and writing prompts.

151 place	152 read	153 put	154 school	155 house
156 part	157 under	158 while	159 found	160 own
161 every	162 away	163 small	164 year	165 tell
166 life	167 three	168 best	169 really	170 set
171 high	172 might	173 went	174 both	175 thought
176 came	177 without	178 few	179 better	180 always
181 let	182 book	183 give	184 end	185 between
186 left	187 show	188 thing	189 sure	190 top
191 hard	192 keep	193 money	194 free	195 once
196 white	197 live	198 room	199 information	200 yes

Practice ideas

- Card sweep: place 12 cards on the table; learners touch the card they hear and then read it aloud in a sentence.
- Fast/slow sort: learners sort words into "I know it fast" and "I need more practice"; teacher uses the slow pile for review.
- Sentence strip match: match a card to a gap in a short sentence, then read the full sentence smoothly.
- Contrast pairs: choose two visually or semantically confusing words and ask learners to explain the difference in context.
- Mini text recycle: write a four-line text using 8 words from the band plus 4 old words from earlier bands.

DELTA reflection questions

- Which words in this band are function words rather than topic vocabulary?
- Which words may be irregular or difficult to decode for your learners?
- Which words can be taught through phrases rather than isolated meanings?
- What evidence would show that learners know the words automatically?
- How would you recycle these words in the next lesson?

Band 5: Words 201-250

Teaching focus

Words 201-250 include city, food, family, transport, and descriptive words that support topic-based reading.

201 page	202 since	203 group	204 please	205 number
206 city	207 men	208 children	209 head	210 black
211 until	212 night	213 large	214 call	215 play
216 enough	217 run	218 today	219 ever	220 line
221 food	222 hand	223 open	224 try	225 air
226 family	227 car	228 real	229 side	230 far
231 against	232 lot	233 course	234 person	235 took
236 change	237 anything	238 light	239 state	240 saw
241 red	242 told	243 feel	244 however	245 important
246 system	247 someone	248 mother	249 during	250 full

Practice ideas

- Card sweep: place 12 cards on the table; learners touch the card they hear and then read it aloud in a sentence.
- Fast/slow sort: learners sort words into "I know it fast" and "I need more practice"; teacher uses the slow pile for review.
- Sentence strip match: match a card to a gap in a short sentence, then read the full sentence smoothly.
- Contrast pairs: choose two visually or semantically confusing words and ask learners to explain the difference in context.
- Mini text recycle: write a four-line text using 8 words from the band plus 4 old words from earlier bands.

DELTA reflection questions

- Which words in this band are function words rather than topic vocabulary?
- Which words may be irregular or difficult to decode for your learners?
- Which words can be taught through phrases rather than isolated meanings?
- What evidence would show that learners know the words automatically?
- How would you recycle these words in the next lesson?

Band 6: Words 251-300

Teaching focus

Words 251-300 include jobs, stories, school, and action words. These support simple narratives and transactional contexts.

251 along	252 game	253 job	254 together	255 nothing
256 seen	257 list	258 kind	259 body	260 care
261 though	262 special	263 box	264 order	265 soon
266 word	267 buy	268 sun	269 done	270 second
271 yet	272 country	273 often	274 start	275 young
276 story	277 oh	278 business	279 above	280 heard
281 able	282 almost	283 land	284 sound	285 face
286 four	287 front	288 point	289 mean	290 ask
291 else	292 stop	293 learn	294 street	295 ago
296 write	297 problem	298 bad	299 everything	300 maybe

Practice ideas

- Card sweep: place 12 cards on the table; learners touch the card they hear and then read it aloud in a sentence.
- Fast/slow sort: learners sort words into "I know it fast" and "I need more practice"; teacher uses the slow pile for review.
- Sentence strip match: match a card to a gap in a short sentence, then read the full sentence smoothly.
- Contrast pairs: choose two visually or semantically confusing words and ask learners to explain the difference in context.
- Mini text recycle: write a four-line text using 8 words from the band plus 4 old words from earlier bands.

DELTA reflection questions

- Which words in this band are function words rather than topic vocabulary?
- Which words may be irregular or difficult to decode for your learners?
- Which words can be taught through phrases rather than isolated meanings?
- What evidence would show that learners know the words automatically?
- How would you recycle these words in the next lesson?

Band 7: Words 301-350

Teaching focus

Words 301-350 include family, home, public places, colours, and class language. They are practical for everyday descriptions.

301 father	302 friend	303 door	304 talk	305 several
306 send	307 wrote	308 later	309 near	310 remember
311 news	312 green	313 anyone	314 love	315 dog
316 move	317 mind	318 table	319 across	320 case
321 don't	322 form	323 already	324 whole	325 paper
326 believe	327 power	328 class	329 boy	330 idea
331 north	332 inside	333 hot	334 everyone	335 close
336 either	337 turn	338 area	339 picture	340 store
341 less	342 blue	343 hear	344 knew	345 fast
346 probably	347 become	348 example	349 women	350 least

Practice ideas

- Card sweep: place 12 cards on the table; learners touch the card they hear and then read it aloud in a sentence.
- Fast/slow sort: learners sort words into "I know it fast" and "I need more practice"; teacher uses the slow pile for review.
- Sentence strip match: match a card to a gap in a short sentence, then read the full sentence smoothly.
- Contrast pairs: choose two visually or semantically confusing words and ask learners to explain the difference in context.
- Mini text recycle: write a four-line text using 8 words from the band plus 4 old words from earlier bands.

DELTA reflection questions

- Which words in this band are function words rather than topic vocabulary?
- Which words may be irregular or difficult to decode for your learners?
- Which words can be taught through phrases rather than isolated meanings?
- What evidence would show that learners know the words automatically?
- How would you recycle these words in the next lesson?

Band 8: Words 351-400

Teaching focus

Words 351-400 include directions, school, government/community, and classroom words. These help learners understand wider texts.

351 fire	352 earth	353 below	354 fact	355 American
356 voice	357 began	358 road	359 music	360 question
361 week	362 early	363 south	364 behind	365 center
366 usually	367 given	368 space	369 pay	370 morning
371 matter	372 window	373 five	374 size	375 short
376 low	377 cut	378 past	379 bill	380 general
381 girl	382 government	383 answer	384 easy	385 quite
386 woman	387 half	388 fun	389 dark	390 upon
391 outside	392 fine	393 feet	394 lost	395 himself
396 ground	397 office	398 stay	399 within	400 field

Practice ideas

- Card sweep: place 12 cards on the table; learners touch the card they hear and then read it aloud in a sentence.
- Fast/slow sort: learners sort words into "I know it fast" and "I need more practice"; teacher uses the slow pile for review.
- Sentence strip match: match a card to a gap in a short sentence, then read the full sentence smoothly.
- Contrast pairs: choose two visually or semantically confusing words and ask learners to explain the difference in context.
- Mini text recycle: write a four-line text using 8 words from the band plus 4 old words from earlier bands.

DELTA reflection questions

- Which words in this band are function words rather than topic vocabulary?
- Which words may be irregular or difficult to decode for your learners?
- Which words can be taught through phrases rather than isolated meanings?
- What evidence would show that learners know the words automatically?
- How would you recycle these words in the next lesson?

Band 9: Words 401-450

Teaching focus

Words 401-450 include company, message, town, subject, law, drive, party, fish, and English. Useful for adult and vocational learners.

401 company	402 sat	403 held	404 leave	405 king
406 watch	407 felt	408 message	409 human	410 happy
411 understand	412 bit	413 rest	414 check	415 possible
416 town	417 mark	418 energy	419 main	420 taken
421 eat	422 tree	423 gave	424 known	425 team
426 shall	427 control	428 west	429 nice	430 subject
431 law	432 drive	433 hold	434 bed	435 party
436 America	437 post	438 instead	439 fish	440 strong
441 wrong	442 ready	443 child	444 sign	445 sent
446 hope	447 wish	448 note	449 English	450 sea

Practice ideas

- Card sweep: place 12 cards on the table; learners touch the card they hear and then read it aloud in a sentence.
- Fast/slow sort: learners sort words into "I know it fast" and "I need more practice"; teacher uses the slow pile for review.
- Sentence strip match: match a card to a gap in a short sentence, then read the full sentence smoothly.
- Contrast pairs: choose two visually or semantically confusing words and ask learners to explain the difference in context.
- Mini text recycle: write a four-line text using 8 words from the band plus 4 old words from earlier bands.

DELTA reflection questions

- Which words in this band are function words rather than topic vocabulary?
- Which words may be irregular or difficult to decode for your learners?
- Which words can be taught through phrases rather than isolated meanings?
- What evidence would show that learners know the words automatically?
- How would you recycle these words in the next lesson?

Band 10: Words 451-500

Teaching focus

Words 451-500 include service, price, plan, travel, level, report, and history. These are useful for study skills and workplace English.

451 cold	452 gold	453 search	454 certain	455 service
456 rather	457 pretty	458 true	459 perhaps	460 wall
461 finally	462 rock	463 type	464 phone	465 reason
466 study	467 test	468 mail	469 clear	470 baby
471 gone	472 price	473 whether	474 hair	475 return
476 board	477 age	478 plan	479 river	480 late
481 public	482 longer	483 map	484 bring	485 support
486 add	487 ball	488 view	489 six	490 among
491 color	492 history	493 wait	494 seem	495 travel
496 level	497 fall	498 floor	499 report	500 I'm

Practice ideas

- Card sweep: place 12 cards on the table; learners touch the card they hear and then read it aloud in a sentence.
- Fast/slow sort: learners sort words into "I know it fast" and "I need more practice"; teacher uses the slow pile for review.
- Sentence strip match: match a card to a gap in a short sentence, then read the full sentence smoothly.
- Contrast pairs: choose two visually or semantically confusing words and ask learners to explain the difference in context.
- Mini text recycle: write a four-line text using 8 words from the band plus 4 old words from earlier bands.

DELTA reflection questions

- Which words in this band are function words rather than topic vocabulary?
- Which words may be irregular or difficult to decode for your learners?
- Which words can be taught through phrases rather than isolated meanings?
- What evidence would show that learners know the words automatically?
- How would you recycle these words in the next lesson?

7. DELTA Toolkit Pages

Use these pages as practical templates when preparing input sessions, observed lessons, assignments, or reflective notes.

High-frequency word lesson checklist

- I selected a manageable number of words.
- I identified which words are decodable and which are tricky.
- I planned clear oral modelling and visual display.
- I moved from word cards to sentence reading.
- I included retrieval practice, not only recognition.
- I planned a delayed review.
- I prepared a way to record learner evidence.

Stage	Aim	Teacher action	Learner action
Lead-in	Activate known words	Show 4 familiar cards	Read and say examples
Presentation	Clarify new words	Model, show pattern, give sentence	Repeat, notice, ask questions
Controlled practice	Build accuracy	Card matching / gap fill	Choose and read
Fluency transfer	Read naturally	Sentence strips / short text	Read for meaning
Feedback	Diagnose and recycle	Elicit corrections, note errors	Self-correct and record

Toolkit: Reflection and Assignment Support

What tutors look for

- Clear connection between problem and procedure.
- Evidence from learners, not vague impressions.
- Appropriate level of challenge.
- Focused, repeated practice with transfer to text.
- Rationale using accurate ELT terminology.

Useful sentence starters

- The learners need further practice with...
- The evidence from the task suggests that...
- I selected these words because...
- The next lesson should recycle...
- The procedure supports automatic recognition by...

Post-lesson reflection box

1. Which words were recognised instantly?
2. Which words were slow or confused?
3. Did learners transfer recognition to sentence reading?
4. What would I reteach, recycle, or extend next?
5. What does this tell me about the learners and my teaching?

Common DELTA-level warning

Avoid describing the lesson as successful just because learners enjoyed the game. Link your evaluation to evidence: accuracy, speed, sentence reading, retention, and transfer.

Final Review: Key Takeaways

- The uploaded PDF is a word-card resource; the teacher must supply the pedagogic sequence.
- High-frequency words should be taught through recognition, use, sentence reading, text reading, and spaced recycling.
- Do not overload learners. A smaller set taught well is more effective than a long list displayed quickly.
- DELTA candidates should justify procedures using learner needs, cognitive load, automaticity, recycling, and assessment evidence.
- Progress should be evaluated through accuracy, speed, transfer, and retention.

Action plan for candidates

Choose one class you teach. Select 20 words from the appendix that are useful for your learners. Divide them into two lessons. Plan how you will teach, recycle, assess, and reflect on the words. Then write a short rationale using at least five terms from the terminology section.

8. Appendix: Complete 500-Word List

The following appendix preserves the full 500-word sequence from the uploaded high-frequency word card PDF in a compact notebook format.

Words 1-50

1 the	2 to	3 and	4 of	5 a
6 in	7 is	8 I	9 you	10 it
11 for	12 that	13 on	14 was	15 with
16 are	17 this	18 be	19 not	20 as

Source and Acknowledgement

This notebook was generated from the uploaded PDF titled High-Frequency Word Cards. The source PDF states that the cards were created for lesson sets on introducing and reviewing high-frequency words, reading sentences with taught words, reading a text, and practice games. It also states that the word cards were created by Devin Kearns and copyrighted by the Texas Education Agency.
